

LUTON

Here we come!

With a growing demand for Training & Assessment centres that can meet all the requirements of the modern plumbing, heating and electrical engineer, at Logic4training we are about to help fill that gap, with the opening of our third centre, located in Luton, to help meet that demand.

Our new centre is a modern building, with well ventilated classrooms, bespoke designed working bays, and offering a natural light learning environment.

At Logic4training, we offer the ideal "One Stop Shop" Training and Assessment facilities for those contractors whose operatives may be spread over the South East.

ON-SITE

- Dedicated Training Bays
- Refreshments & Lunch provided
- Ample On-Site Parking

Our Luton centre will be providing a continuation of those courses and high standards as currently in place and experienced by our customers at our Northolt and Basildon Centres, where we offer courses covering: **Gas, Electrical, Plumbing, Renewables and Safety.**

Just off the M1, our LUTON Centre is accessible from either **Junction 11** (from the South) or **12** (coming from the North), with over 50 dedicated parking spaces available on-site. For those wishing to come by train, there is also links near by to public transport.

To find out more, contact our Customer Services Team on **0845 845 7222**.

OPENING OFFER – 20% DISCOUNT!

WHY WAIT! To receive your **20%** discount, all you need to do is book yourself onto one of our courses at our **NEW LUTON Centre**.

Now taking bookings on **0845 845 7222**.

Or why not pop along and see us in person at **ECOBUILD, 2nd – 4th March, Stand No. 412 (Level 2), Earls Court, London**, followed by **PHEX Aston Villa FC, 10th–11th March, Stand No. 52**, and **PHEX Wembley Stadium, 28th–29th April, Stand No. 16**.

FAQ's

Welcome to the 15th edition of the Logic4training newsletter, where Peter Dayton and Neil Parsons, reply to questions recently asked. Should you have any questions on any aspect of training and assessment, or its application please e-mail postbag@logic4training.co.uk

- **Q1** I keep seeing new flueless gas fires on sale. I thought flueless fires were a thing of the past. Are they safe? Are there any limitations on where or how they can be used?

Peter Dayton replies:

- **A Yes** – They are safe. They have a catalytic converter that converts any small amount of carbon monoxide to carbon dioxide. Modern catalytic converters are highly reliable but, like any gas appliance, regular servicing is essential.

These fires should only be used as secondary heating to avoid condensation in the room and have very specific requirements on the size and position of air vents.

- **Q2** If I become a Solar Photovoltaic installer, do I have to be "Part P" registered?

Neil Parsons replies:

- **A** To get a Feed In Tariff for the client and to access any grants, you have to belong to the Microgeneration Certificate Scheme (MCS). Whilst the installation of a Solar Photovoltaic System in a domestic property is notifiable, the same rules apply as for other notifiable work **i.e.** to self certificate you need to be a holder of a Competent Persons Scheme or you could notify the Local Authority Building Control directly.

NO COMPROMISE when it comes to Safety in the workplace!

When it comes to Safety and keeping your workforce fully skilled and qualified, it makes good business sense to check out our courses!

As of January 2010, our NEW Safety Training Courses cover: Health and Safety Awareness, The Site Supervisor's Safety Training Scheme, Asbestos Awareness, Fire Safety, IOSH Working Safely, Manual Handling, Office Safety, Steps and Ladders and Working at Height. So you now know where to come for Safety Training, ...Logic4training.

With businesses looking to provide higher standards of workmanship and performance, for those companies investing in Safety Training, they are better placed to win contracts.

Our trainers are fully skilled and qualified, and available to run courses from either of our three centres based in Northolt, Basildon or Luton.

To find out more about any of these courses contact our **Customer Services Team** on **0845 845 7222** or visit our website www.logic4training.co.uk

Logic4training helping your business to secure funding!

Apart from running various courses under the Renewables category, at Logic4training we have secured access to helping your business apply for 50% Funding towards any of the three specific Renewable courses as listed below.

Why pay more for your companies training than you need, when 50% Funding is available.

As a business or sole trader based in either of the following six counties – Essex (outside of the M25), Hertfordshire, Bedfordshire, Cambridgeshire, Norfolk and Suffolk when someone else is prepared to pay half, to help grow your business by taking you into new sectors, especially the renewables market, then can you afford to turn it down?

Logic4training are firm believers in increasing the energy efficiency of those systems installed and helping at the same time to reduce the overall carbon footprint of the overall business and its customers.

Logic4training have already helped many customers apply for this funding, so don't miss out on this opportunity while funding is still available.

With many courses available at either of Logic4training's three centres at: Northolt, Basildon and Luton (opening March 2010), why not check out for yourself and contact a member of our Customer Services Team on 0845 845 7222 or visit our website: www.logic4training.co.uk

COURSES AVAILABLE

- Solar Thermal Domestic Hot Water
- Domestic Heat Pump installer
- Domestic Solar Photovoltaic Installer

OFTEC OIL COURSES

Logic4training – APPROVED TO DELIVER TRAINING and ASSESSMENT FOR DOMESTIC & COMMERCIAL OIL FIRED APPLIANCES

Approved Training Centre

Logic4training can now offer this latest OFTEC course at our Basildon Centre after receiving approval from OFTEC in January. Although Basildon lies to the East of London, it also sits on the edge of good oil installation areas in Essex, Cambridgeshire and Norfolk.

Logic4training has been approved to deliver the following assessments:

- **OFT 101** (Domestic/Light Commercial Pressure Jet Appliances, Commissioning and Servicing)
- **OFT 105E** (Domestic Oil Firing installation and Energy Conservation Measures in Buildings)
- **OFT 600A** (Domestic and Non-domestic Oil storage and Supply Installation)

This course has been designed for those engineers who install and maintain oil fired heating appliances.

Costs quoted in our Price List include certification fee.

OFTEC Training Manuals are available for use during the course and can be purchased directly from either of our centres at a cost of **£90 for the set.** (Books 1,2,3,& 4)

GMTV Early morning call... to promote consumer safety in the home from CO (*The Silent Killer*).

Logic4training once again responded to a request by GMTV to help them in the filming of their early morning programme on the 19th January 2010, covering this silent killer and the dangers of Carbon Monoxide poisoning in the home. Mark Krull and Peter Dayton pointed out the tell tale signs to look for, and the importance of having your appliances correctly installed by an approved gas engineer as well as having your boilers, fires & cookers regularly serviced. **The message was clear... protect your family today, by purchasing and installing a Carbon Monoxide Alarm in the home!**

Spreading the word in 2010... See you there!

2010 is an important year for Logic4training, and to support the opening our new centre in Luton, Logic4training has a busy schedule of exhibitions planned, where we can meet our customers face to face to discuss their individual and/or companies Training & Assessment requirements.

Exhibition Venues and Dates

- Ecobuild, Earls Court, London, 2nd–4th March, Stand No. 412 (Level 2)
- PHEX Aston Villa FC, Villa Park, 10th–11th March, Stand No. 52
- PHEX Wembley Stadium, 28th–29th April, Stand No. 16
- PHEX Chelsea FC, Stamford Bridge, 17th–18th November, Stand No. 11

...and with three centres to choose from: Northolt, Basildon & Luton (March)

Come and see the **number 1** training organisation during 2010!

With so many changes in the industry happening at the moment you need a training provider that can guide you through these changes and make sure you are best placed to take advantage of them. Logic4training is the South's premier organisation for Training & Assessment in the Gas, Electrical, Plumbing, Renewable and Safety arenas. Whether you're an existing customer or just want to talk about Training and Assessment please come and see us at one of the venues during 2010.
