STOP PRESS – CPA1 is now a PRE-REQUISITE for CEN1 and HTR1

DOMESTIC NATURAL GAS SAFETY ASSESSMENTS

CODES	5 DAY CCN1 & APPLIANCES INITIAL ASSESSMENT PACKAGE	COST
CCN1 CKR1 HTR1 WAT1 CEN1	This package includes training and Initial Assessment on Core Gas Safety plus 4 appliances (central heating boilers/cookers/gas fires/water heaters). This course is for those candidates who are undertaking ACS for the 1st time or, who have undertaken and completed the APL programme. The price of this package will be reduced for candidates requiring assessment in less than 4 appliances by £125.00/appliance. Price includes certification fee. To add CPA1 to this package please add £75.00 to the quoted price.	£1,085.00

RE-ASS. CODES	4 DAY CCN1 & APPLIANCES RE-ASSESSMENT PACKAGE	COST
CCN1 CKR1 HTR1 WAT1 CEN1	This package includes training and Re-Assessment on Core Gas Safety plus 4 appliances (central heating boilers/cookers/gas fires/water heaters). Candidates may only undertake Re-Assessment on modules in which they have previously been certificated under the ACS scheme. The price of this package will be reduced for candidates requiring assessment in less than 4 appliances by £85.00/appliance. Price includes certification fee. To add CPA1 to this package please add £75.00 to the quoted price.	£925.00

CODE	CORE GAS SAFETY INDIVIDUAL CATEGORY	TRAINING	ASSESSMENT
CCN1	A full core assessment intended for operatives who carry out installation & maintenance work on pipework, appliances and equipment on domestic natural gas. This is a prerequisite to all of the appliance assessments.	£170.00 2 DAYS	£350.00 2 DAYS

APPLIANCES	Includes installation and maintenance of each of the following domestic gas fired appliances. This tariff is for candidates with an existing CCN1 qualification who want to add/renew appliance qualifications.	TRAINING	ASSESSMENT
CEN1	Central heating boilers/hot water circulators (<i>CPA1 required</i>)	£65.00 per appliance	£125.00 for INITIAL £85.00 for RE-ASSESS. per appliance
CKR1	Cookers		
HTR1	Space heaters (including gas fires and wall heaters) (<i>CPA1 required</i>)		
WAT1	Water heaters		
DAH1	Warm air heating appliances		
MET1	Meters		
LAU1	Tumble dryers		
CPA1	Combustion Performance Analysis of domestic appliances (required for CEN1 and HTR1) Special Offer Package Training, Assessment, Certification – £175.00		

COURSE	APPROVED PRIOR LEARNING PROGRAMME	DURATION	COST
APL Training Course for Domestic Gas	This is an in-depth training programme covering all aspects of domestic gas safety, and is recognised by the ACS scheme as a managed learning programme for ACS. The course is intended for operatives with plumbing, heating, pipefitting or similar skills which can be transferred to the gas industry. Those without sufficient skills will need to complete the foundation course detailed below. Following successful completion of the programme, and the necessary work portfolio (if required), candidates will be ready to undertake the 5 Day Initial Assessment ACS Package for Core Gas Safety (CCN1) and Central Heating Boilers (CEN1) and Combustion Performance Analysis (CPA1) at a cost of £720.00+vat. Acceptance on to this course is subject to an interview and proof of experience in order to meet the ACS scheme entry requirements. The format and content of the work portfolio is covered during the interview and induction. The certification fee for ACS and a training manual are included in the cost of this course.	10 DAYS	£1,295.00
APL Foundation Course	This course acts as a foundation for the APL programme and covers areas including pipework skills, basic gas appliance functions, basic flueing, and basic principles of combustion. This course would be for those who do not have all the transferable skills required to undertake the APL training course as detailed below. Once candidates have completed this foundation course they can move on to undertake the APL training course.	5 DAYS	£595.00

All the above ACS courses (except APL and packages) are subject to a certification fee.

LPG SAFETY ASSESSMENTS

ASSESSMENT CODE	CATEGORY	TRAINING	ASSESSMENT
CONGLP1 (Including CONGLP1 PD Permanent Dwellings)	Changeover domestic natural gas to LPG for those holding a current CCN1 certificate or a COCN1 certificate. This course includes CCLP1 PD; installation servicing, and repair of domestic appliances in permanent dwellings.	1 DAY £85.00	1 DAY £175.00

LPG CATEGORY PACKAGE		DURATION	COST
This package includes training and assessment for the listed category types. The course includes installation, service, repair and commission on each of the following categories.	CONGLP1 LAV - Leisure Accommodation Vehicles	1 DAY	£65.00 for each category or £235.00 for all four
	CONGLP1 RPH - Residential Park Homes		
	CONGLP1 B - Boats and Yachts		
	HTRLP2 - Closed flue gas fires, LPG		

COMMERCIAL NATURAL GAS SAFETY ASSESSMENTS

ASSESSMENT CODES	6 DAY COMMERCIAL CHANGEOVER PACKAGE	COST
CODNCO1 ICPN1 TPCP1A CIGA1 CORT1 CDGA1	This package includes training and assessment on changeover domestic to commercial core gas safety, installation first fix of commercial pipework and appliances, commission, service, repair and breakdown of 3 commercial appliances and tightness testing and direct purging of installation pipework. The package is intended for those with relevant experience of the subjects covered. CCN1 is a pre-requisite qualification for this course. Price includes certification fee.	£1,275.00

ASSESSMENT CODES	8 DAY COMMERCIAL CORE GAS SAFETY PACKAGE	COST
COCN1 ICPN1 TPCP1A CIGA1 CORT1 CDGA1	This package includes training and assessment on commercial core gas safety, installation first fix of commercial pipework and appliances, commission, service, repair and breakdown of 3 commercial appliances and tightness testing and direct purging of installation pipework. The package is intended for those with relevant experience of the subjects covered. Price includes certification fee.	£1,595.00

CORE

ASSESSMENT CODE	CATEGORY	TRAINING	ASSESSMENT
COCN1	Commercial Core natural gas safety assessment. This or a CODNCO1 is a prerequisite to all of the appliance assessments.	£255.00 3 DAYS	£350.00 2 DAYS
CODNCO1	Changeover domestic natural gas to commercial natural gas for those holding a current core domestic gas safety (CCN1).	£170.00 2 DAYS	£210.00 1 DAY

PIPEWORK

ASSESSMENT CODE	CATEGORY	TRAINING	ASSESSMENT
ICPN1	Installation first fix of pipework in excess of 35mm for natural gas and LPG.	£75.00 1/2 DAY	£150.00 1/2 DAY
TPCP1A	Tightness testing & direct purging of installation pipework not exceeding 1m ³ in volume, 40 mbar pressure and 150mm diameter natural gas only.	£85.00 1 DAY	£150.00 1/2 DAY
TPCP1	Tightness testing & purging of installation pipework exceeding 1m ³ in volume, up to 16 bar operating pressure (natural gas) & 2 bar operating pressure for LPG♦	£170.00 2 DAYS	£210.00 1 DAY

All the above ACS courses (except APL and packages) are subject to a certification fee.

COMMERCIAL NATURAL GAS SAFETY ASSESSMENTS *continued*

APPLIANCES

ASSESSMENT CODE	CATEGORY	TRAINING	ASSESSMENT
CIGA1	Commission, service, repair and breakdown of indirect fired natural gas and LPG ♦ commercial appliances.	£75.00 per appliance	£150.00 per appliance
CORT1	Commission, service, repair & breakdown of natural gas and LPG ♦ overhead radiant tube heaters and radiant plaque heaters.		
CDGA1	Commission, service, repair and breakdown of direct fired natural gas commercial appliances.		
BMP1 (formally CBHP1)	Commercial gas boosters – medium pressure.		
CGFE1	Commercial gas fuelled engines. This can be carried out on site. A guide and questionnaire can be sent to customers who require this assessment.	On-site P.O.A.	On-site P.O.A.

♦ **Subject to the candidate holding the relevant natural gas or LPG core certificate.**

8 DAY DOMESTIC TO COMMERCIAL UP-SKILL PACKAGE	COST
An in depth course to take operatives who already hold domestic CCN1 but have limited experience on commercial appliances and require detailed knowledge on the different appliance types, flues, controls and systems that can be commonly found in the field. The candidate will also undertake the required training and assessment on CODNCO1 (changeover commercial gas safety), ICPN1 (installation first fix of pipework in excess of 35mm), and CIGA1 (commission, service, repair and breakdown of indirect fired commercial appliances). The course price includes the certification fee. Further modules can be taken as required.	£1,275.00

5 DAY APPROVED PRIOR LEARNING PROGRAMME FOR COMMERCIAL HEATING	COST
This is an in-depth training programme covering all aspects of commercial heating gas safety as required by the ACS scheme, and it is recognised under the ACS Scheme as a managed learning programme. The course is intended for experienced operatives with sufficient commercial heating experience. Following successful completion of the programme, and the necessary work portfolio (if required), candidates will be ready to undertake the 6 Day Commercial Heating Assessment ACS Package as shown in the commercial gas courses section, for Commercial Core Gas Safety (COCN1), Pipework Installation (ICPN1) and Indirect Fired Boilers (CIGA1) at a cost of £995.00 + vat. Acceptance on to this course is subject to an interview and proof of experience in order to meet the ACS entry requirements. The format and content of the work portfolio is covered during the interview and induction. A training manual and the certification fee are included in the cost of this course.	£895.00

All the above ACS courses (except Commercial packages) are subject to a certification fee.

COMMERCIAL CATERING

5 DAY APPROVED PRIOR LEARNING PROGRAMME FOR COMMERCIAL CATERING	COST
This is an in-depth training programme covering all aspects of commercial catering gas safety as required by the ACS scheme, and it is recognised under the ACS scheme as a managed learning programme. The course is intended for experienced operatives with sufficient commercial catering experience. Following successful completion of the programme, and the necessary work portfolio (if required), candidates will be ready to undertake the 5 Day Commercial Catering Assessment ACS Package as shown in the commercial catering gas courses section for Catering Core Gas Safety (CCCN1), Gas Ranges (COMCAT1) and Gas Fryers (COMCAT3) at a cost of £830.00 + vat. Acceptance on to this course is subject to an interview and proof of experience in order to meet the ACS entry requirements. The format and content of the work portfolio is covered during the interview and induction. A training manual and the certification fee are included in the cost of this course.	£895.00

COMMERCIAL CATERING *continued*

PACKAGES

ACS CODES	DESCRIPTION	DURATION	COST
CODC1 COCATA1	ACS Changeover from Domestic to Commercial Catering Package COCD1, including COCATA1 changeover domestic to catering appliances. To undertake this package, operatives must hold a current CCN1 and a domestic appliance i.e. CEN1 or CKR1. Price includes the certification fee.	3 DAYS	£695.00
CCCN1 COMCAT1 COMCAT3	ACS Commercial Catering Core Package CCCN1, including COMCAT1 (Boiler burners, open/solid top ranges, hotplate, bain maries) and COMCAT3 (Deep fat and pressure fryers, griddle, grills). Price includes the certification fee.	5 DAYS	£895.00

NEW OFTEC OIL

COURSE TITLE	DESCRIPTION	DURATION	COST
OFTEC Training and Assessment Package OFT 101, 105E, 600A	This package includes for training and assessment on the 3 main OFTEC elements OFT 101, OFT 105E and OFT 600A as detailed below. Price includes the certification fee. (OFTEC scheme rules and entry requirements apply).	4 DAYS	£695.00
OFT 101	Domestic/Light Commercial Pressure Jet Appliance Commissioning & Servicing – this includes for training and assessment. Cost includes for certification fee.	2 DAYS	£295.00
OFT 105E	Domestic Oil Firing Installation and Energy Conservation Measures in Buildings. Cost includes for certification fee, (training 1/2day, and assessment 1/2day).	1 DAY	£225.00
OFT 600A	Domestic and Non-domestic Oil Storage and Supply Installation. Cost includes for certification fee, (training 1/2day, and assessment 1/2day).	1 DAY	£225.00

The above courses are for category 1 & 2 candidates only and proof must be provided. OFTEC Training manuals are available for use during the course or can be purchased directly from the centre at a cost of £90 for the set (books 1,2,3,4).

ADDITIONAL COURSES

COURSE TITLE	COURSE CONTENT	DURATION	COST
Safe Isolation of Domestic Electrical Installation	This course is for operatives who may need to isolate electrical services before commencing work on either the electrical installation or connected appliances. The course covers the requirements of the Electricity at Work Regulations and involves practical training and an assessment using electrical test rigs. Price includes course information and certification fee.	½ DAY	£125.00
City & Guilds 6020-01 Domestic Energy Assessor Course	This course is for candidates who want to be able to issue Domestic Energy Performance Certificates (EPC) which are required by private or social landlords and those selling a domestic property in England and Wales. The package price includes the undertaking of two EPC's as part of building the required portfolio. Price includes the registration and exam fee with City & Guilds. Also includes 1st years registration with H&VCA as a Domestic Energy Assessor (worth over £150.00) and a copy of the Domestic Energy Assessors Guide.	5 DAYS	£1,495.00
Gas Safety Awareness and Management	Gas safety course for Managers, Surveyors & Supervisors who have a duty and responsibility for operatives carrying out work on gas systems but do not hold CCN1 but need to be aware of current regulations and gas safety procedure, "Part L" regulation, SEDBUK rating, RIDDOR procedure and CP12 requirements.	1 DAY	£150.00

RENEWABLE ENERGY COURSES

COURSE TITLE	COURSE CONTENT	DURATION	COST
Solar Photovoltaic Systems Course	This course is designed to give an entry level qualification for experienced domestic/commercial electricians wishing to extend their work scope into Solar Photovoltaics. The course will cover Solar Photovoltaic installations up to 5kWp output and will cover the predominant systems (grid connected). Candidates must have experience in testing and issuing appropriate certificates as per BS7671 and must have a verifiable knowledge of the 17 th Edition Wiring Regulations (2382 or 17 th Edition Full Scope Part P). Price includes the course manual and certification fee.	3 DAYS	£495.00
Solar Thermal Domestic Hot Water Course	This course is to give an entry level qualification for experienced domestic heating installers or plumbers, wishing to extend their work scope into solar heating. The candidate should hold a G3 certificate in domestic unvented hot water systems. It is also essential that the candidate holds one DCLG recognised competency in a conventional fuel i.e. gas, oil or solid fuel; or for those in the plumbing field, an NVQ level 2 or equivalent plumbing qualification. The course is not intended to cover roof or access work in detail (other than to highlight legislative requirements). Price includes course manual and certification fee.	2 DAYS	£375.00
Domestic Heat Pump Installer Course (Ground & Air Source)	This course is for experienced heating installers who wish to install heat pumps in domestic properties and small commercial properties. The course covers both ground to water and air to water technologies. The candidates should have a good working knowledge of heating/hot water systems and design with an NVQ level 3 qualification or equivalent experience. Price includes the course manual and certification fee.	3 DAYS	£495.00

HEATING AND WATER RELATED COURSES

UNVENTED HOT WATER SYSTEMS	DURATION	COST
This course is to train candidates in the installation and safety requirements of all Unvented Hot Water Systems up to 500 litres capacity and to meet Building Regulations (G3) and is designed for any candidate wishing to install or maintain Unvented Hot Water systems. The price includes training, assessment, certification fee and course manual.	INITIAL 1 DAY	INITIAL £195.00
	RE-ASSESS. ½ DAY	RE-ASSESS. £125.00

WATER REGULATIONS ADVISORY SCHEME (WRAS) CERTIFICATE	DURATION	COST
This course covers the Water Regulations 1999. The course does not require the candidate to undertake prior learning as all the requirements will be covered during the course. Upon completion, the successful candidates will receive a certificate and card which will allow them to apply for approved plumbing contractor status with the Water Authorities. The cost of the course includes all training material, assessment and certification fee. This course is certified by LOGIC Certification and is WRAS approved.	1 DAY	£195.00

LEGIONELLA PREVENTION AND WATER TREATMENT	DURATION	COST
This course is designed to enable installers to understand the requirements of the ACoP Guidance Document L8, HSE Guidance, British Standards and Water Regulations. With the increased publicity surrounding recent outbreaks of Legionnaires, effective water treatment is of paramount importance to those carrying out installation & maintenance of hot & cold water supply systems and to those who are responsible for managing the properties. On completion of the course the installer will be able to undertake risk assessment and carry out disinfection using a range of methods including bleached, chlorine and silver hydrogen peroxide. The cost of the course includes all training material, assessment and certification fees.	1 DAY	£195.00

COURSE TITLE	COURSE CONTENT	DURATION	COST
Certificate in Energy Efficiency for Domestic Heating	The LOGIC Certification/IDHEE Energy Efficiency for Domestic Heating Certificate is for the professional heating installer who works in domestic properties. This course will prepare you for "self certification" as required under "PART L" Building Regulations. The certificate will demonstrate your competence and is recognised by Summit Skills, The Energy Savings Trust and The Energy Efficiency Partnership for Homes. Price includes training, assessment and certification fee.	1 DAY	£150.00
Foundation Certificate in Heating & Hot Water System Design & Specification	This course is for those who need to be able to understand and apply the criteria laid out in the Domestic Heating Design Guide for specifying and designing of wet central heating systems. The candidate will cover the following topics: Comfort conditions, System types, System design (including heat loss calculations), System specification & sizing of heating and hot water systems. The course would be particularly suitable for those having completed the APL programme or Heat Pump Course. Price includes certification fee and a copy of the Domestic Heating Design Guide.	2 DAYS	£375.00
NEW Domestic Underfloor Heating Installer Course	This course is for experienced heating and plumbing installers who wish to install wet underfloor heating systems in domestic properties and small commercial properties. The course will cover the predominant systems. The candidates should have a good working knowledge of heating/hot water systems and design with an NVQ level 2 qualification or equivalent experience. Price includes the course manual and certification fee.	2 DAYS	£375.00

FULL SCOPE ELECTRICAL COURSES

CODE	COURSE DESCRIPTION	DURATION	COST
City & Guilds 2382-10 BS7671 IEE 17th Edition Wiring Regulations FULL	This course is for electricians and those requiring a working knowledge of the 17 th Edition wiring regulations. Assessment is by City & Guilds GOL A online assessment which is based on a multiple choice format and takes 2 hours. Price includes registration with City & Guilds and examination costs. Guidance documents are provided for use during the course.	3 DAYS	£455.00 <i>Includes Brian Scadden guide to 17th Edition Wiring Regs.</i>
City & Guilds 2382-20 BS7671 IEE 17th Edition Wiring Regulations UPDATE	This course is for electricians who hold one of the following and wish to update their qualification to cover the 17 th Edition wiring regulations: C&G 2381 (after June 2001), 2330 Pt7, 2330 Pt8 or 2360 Pt2. Assessment is by the City & Guilds GOL A online assessment which is based on a multiple choice format and takes 1 hour. Price includes registration with City & Guilds and examination costs. Guidance documents are provided for use during the course. Candidates must provide the enrolment number from their original certificate before they can undertake the update course, City & Guilds can provide replacement certificates if required.	1 DAY	£195.00 <i>Includes Brian Scadden guide to 17th Edition Wiring Regs.</i>
City & Guilds 2391 Inspection Testing & Certification of Electrical Installations to BS7671	This course is for those involved in, or responsible for the inspection, testing and certification of electrical systems under BS7671. The training is a mixture of both theory and practical on purpose built rigs. The practical assessment takes place on day 4 and lasts between 3-4 hours. The closed book written assessment takes place throughout the year on specified dates and is 2 1/2 hours long. Candidates should hold City & Guilds 2382 17 th Edition and have a practical working knowledge of installation, testing and certification of different electrical systems. Price includes registration with City & Guilds and examination costs.	3 1/2 DAYS	£595.00 <i>Includes Brian Scadden guide to Testing and Inspection.</i>
City & Guilds 2377-02 In-service Inspection & Testing of Electrical Equipment	This course is for those who are involved in or wish to carry out inspection & testing of in-service electrical equipment. The course covers the practical hands-on requirements and tests required on electrical equipment, and the regulatory and legal requirements that underpin the inspection & testing. Assessment is by City & Guilds GOL A online assessment which is based on an open book multiple choice format and takes 1 hour. Price includes registration with City & Guilds and examination costs.	1 DAY	£195.00 <i>Includes Brian Scadden guide to PAT Testing.</i>
LOGIC Certification Testing & Periodic Inspection of Domestic Electrical Installations	This course is for experienced operatives who wish to issue Periodic Electrical Inspection Reports for domestic properties. The course is designed around the requirements laid down under BS7671 and will ensure candidates are fully conversant with the testing and inspection regime required using purpose made live rigs. Candidates should hold a "Level A" qualification and have a practical working knowledge of domestic electrical systems. This course covers only the issuing of Periodic Electrical Inspection Reports for domestic properties and those wishing to carry our Periodic Inspections for commercial or 3 phase systems should consider the City & Guilds 2391. Price includes certification fee.	2 DAYS	£375.00

All the prices quoted are subject to VAT. Prices are current at the time of publication but may be subject to change. Training is not an essential prerequisite to ACS assessment. If candidates fail to achieve the required level of competency in either the practical or theory assessment, it may be necessary for them to complete a re-sit. If this situation arises an additional cost may be incurred. Logic4training is a LOGIC Certification approved ACS assessment centre.

The above durations include training and assessment. These timescales may alter during the course depending upon knowledge and experience of the candidate.

"PART P" ELECTRICAL DEFINED & FULL SCOPE COURSES

The Defined Scope Electrical "Part P" course has been designed to enable gas installers, plumbers, kitchen fitters and builders to meet their requirements under the Building Regulations "Part P" to show their competence, and enable them to join an approved Competent Person self certification scheme as a defined scope operative. In addition to the Defined Scope assessments operatives can take the Full Scope top up assessment or sit the complete Full Scope course which can then be used to join a "Part P" Electrical Competent Persons Scheme as a Full Scope operative or qualifying supervisor.

Note: Anyone either belonging to, or wishing to join a Competent Person Scheme for "Part P", must also hold the 17th Edition Wiring Regulations qualification (City & Guilds 2382).

COURSE	COURSE DESCRIPTION	DURATION	COST
Defined Scope Package including Lighting & Power levels B & C	The package is for engineers who carry out work on domestic electrical installations as a secondary task to their main role (Defined Scope). It includes component exchange, testing & inspection and both the power & lighting elements, level B & C. The price includes supply of the IEE On-Site Guide for BS7671 & Certification fee.	4 DAYS	£745.00
Level A module to add to above Defined Scope	This module covers the additional areas that are applicable for those moving from the defined scope package above to the full scope package below. It covers the additional areas including special locations, new domestic circuits, domestic lighting circuits, maintaining domestic installations and 3 phase supplies. Combined with the defined scope package this can be used to join a "Part P" Full Scope Competent Persons Scheme.	1 DAY	£100.00
Level A Full Scope Electrical Package	The package is for any operative involved in the installation of domestic electrical systems who wishes to join a "Part P" Full Scope Competent Persons Scheme. The course and assessment covers all the 17 competence areas as listed in guidance document for Level A (Qualified Supervisor). The price includes supply of the IEE On-Site Guide for BS7671 and certification fee.	5 DAYS	£845.00
Defined Scope "Part P" Re-Assessment Package	This package is for those candidates who have previously undertaken either the LOGIC Certification or BPEC Defined Scope "Part P" qualification and need to renew it. This package includes for refresher training & assessment and covers all the 17 th Edition Wiring Regulation changes plus refresher training on testing & certification. The cost includes the certification fee, plus 17th Edition On-Site Guide. Note: Anyone either belonging to, or wishing to join a Competent Person Scheme for "Part P", must also hold the 17 th Edition Wiring Regulations qualification (City & Guilds 2382).	2 DAYS	£375.00

NEW HEALTH & SAFETY TRAINING COURSES

COURSE	COURSE DESCRIPTION	DURATION	COST
Health & Safety Awareness	This course gives the operative an understanding of the potential hazards on a construction site.	1 DAY	£195.00
Site Supervisors' Safety Training	An introduction to Health & Safety, welfare & environmental issues, and an overview of responsibilities on construction sites.	2 DAYS	£300.00
Asbestos Awareness	This course is intended for persons who are likely to disturb asbestos while carrying out their normal everyday work.	½ DAY	£125.00
Fire Safety	This highly participative course is designed to ensure that a person at work understands the principles of fire safety.	½ DAY	£125.00
IOSH working Safely	An introduction to Health and Safety that raises awareness of individual and collective actions in the workplace.	1 DAY	£195.00
Manual Handling	This course is designed to provide an awareness of the injuries and damage caused by poor manual handling.	½ DAY	£125.00
Office Safety	Employees have a duty of care for their office staff, and companies of 5 or more have a legal obligation to inform them.	½ DAY	£125.00
Steps & Ladders	Designed specifically to recognise and eliminate the dangers of incorrect ladder usage.	½ DAY	£125.00
Working at Height	For operatives whose work may involve exposure to a fall from height, in construction, maintenance, cleaning or access.	½ DAY	£125.00

NEW AM2 ELECTROTECHNICAL ASSESSMENT

COURSE	COURSE DESCRIPTION	DURATION	COST
NEW Achievement Measurement 2 (AM2) Electrotechnical Assessment	The Achievement Measurement 2 (AM2) is the Electro-technical Industry standard assessment for electrical competence and forms an essential part of the Electrical Advanced Apprenticeship. This assessment takes place only at the Luton centre which is an approved centre under the NET network and consists of practical installation, inspection & testing and fault finding assessment plus an online theory assessment. A self assessment checklist is required to be completed before the assessment can be undertaken. The price includes the certification fee.	3 DAYS	£560.00
NEW AM2 Revision	This optional refresher training can be undertaken by candidates prior to undertaking the AM2 assessment detailed above. During the revision course we will cover aspects of installation, inspection, testing, certification and fault finding including SWA, SY, motors and FP. There is no certificate issued and candidates should have completed the AM2 self assessment checklist before booking on to this refresher course.	2 DAYS	£190.00 (£95.00/day)
NEW AM2 Retest	Each of the 4 areas of the AM2 assessment can be undertaken as a retest if required, more information can be obtained by calling the Customer Services Team on 0845 845 7222 .	Call for more details	Call for more details

NEW F-GAS REFRIGERATION HANDLING

CODE	COURSE DESCRIPTION	DURATION	COST
NEW City & Guilds 2079-11 Level 2 Certificate in F-Gas & ODS Regulations	This qualification is for those working within the refrigeration and air-conditioning industry who need to meet the legal requirements for working with Fluorinated Gases, otherwise known as F-Gases and other Ozone Depleting Substances. The course also covers brazing of pipework. This package is for those wishing to be covered for all four categories including leak checking, refrigerant recovery, service/maintenance, and installation. The price includes for the practical and theory training, examination fees and the CITB Safe Handling of Refrigerants training manual.	5 DAYS	£895.00
NEW City & Guilds 2079-11 Level 2 Certificate in F-Gas & ODS Regulations	This qualification is the same as above, but this package is for EXPERIENCED operatives who are fully conversant with Ph Charts, basic principles of vapour compression system, subcooling and superheating, and practical application of these principles on refrigeration systems. The price includes for theory training only, examination fees and the CITB Safe Handling of Refrigerants training manual.	3 DAYS	£550.00
