## DOMESTIC NATURAL GAS SAFETY ASSESSMENTS

CODES	5 DAY CCN1 & APPLIANCES INITIAL ASSESSMENT PACKAGE	COST
CCN1 CKR1 HTR1 WAT1 CEN1	This package includes training and <b>Initial Assessment</b> on Core Gas Safety plus 4 appliances (central heating boilers/cookers/gas fires/water heaters). This course is for those candidates who are undertaking ACS for the 1st time or, who have undertaken and completed the APL programme. <b>The price of this package will be reduced for candidates requiring assessment in less than four appliances by £125.00/appliance. Price includes certification fee.</b>	<b>£1,085.00</b>

RE-ASS. CODES	4 DAY CCN1 & APPLIANCES RE-ASSESSMENT PACKAGE	COST
CCN1 CKR1 HTR1 WAT1 CEN1	This package includes training and <b>Re-Assessment</b> on Core Gas Safety plus 4 appliances (central heating boilers/cookers/gas fires/water heaters). Candidates may only undertake <b>Re-Assessment</b> on modules in which they have previously been certificated under the ACS scheme. <b>The price of this package will be reduced for candidates requiring assessment in less than four appliances by £85.00/appliance. Price includes certification fee.</b>	<b>£925.00</b>

CODE	CORE GAS SAFETY INDIVIDUAL CATEGORY	TRAINING	ASSESSMENT
CCN1	A full core assessment intended for operatives who carry out installation & maintenance work on pipework, appliances and equipment on domestic natural gas. <b>This is a prerequisite to all of the appliance assessments.</b>	<b>£170.00</b> <b>2 DAYS</b>	<b>£350.00</b> <b>2 DAYS</b>

APPLIANCES	Includes installation and maintenance of each of the following domestic gas fired appliances. This tariff is for candidates with an existing CCN1 qualification who want to add/renew appliance qualifications.	TRAINING	ASSESSMENT
CEN1 CKR1	Central heating boilers/hot water circulators Cookers	<b>£65.00</b> per appliance	<b>£125.00</b> for <b>INITIAL</b> <b>£85.00</b> for <b>RE-ASSESS.</b> per appliance
HTR1	Space heaters (including gas fires and wall heaters)		
WAT1	Water heaters		
DAH1	Warm air heating appliances		
MET1	Meters		
LAU1	Tumble dryers		
CPA1	Combustion Performance Analysis of domestic appliances <b>STOP PRESS – CPA1 is now a PRE-REQUISITE for CEN1 and HTR1</b>		

COURSE	APPROVED PRIOR LEARNING PROGRAMME	DURATION	COST
APL Foundation Course	This course acts as a foundation for the APL programme and covers areas including pipework skills, basic gas appliance functions, basic flueing, and basic principles of combustion. This course would be for those who do not have all the transferable skills required to undertake the APL training course as detailed below. Once candidates have completed this foundation course they can move on to undertake the APL training course.	<b>5 DAYS</b>	<b>£595.00</b>

COURSE	APPROVED PRIOR LEARNING PROGRAMME	DURATION	COST
APL Training Course for Domestic Gas	This is an in-depth training programme covering all aspects of domestic gas safety, and is recognised by the ACS scheme as a managed learning programme for ACS. The course is intended for operatives with plumbing, heating, pipefitting or similar skills which can be transferred to the gas industry. Those without sufficient skills will need to complete the foundation course detailed above. Following successful completion of the programme, and the necessary work portfolio (if required), candidates will be ready to undertake the 5 Day Initial Assessment ACS Package for Core Gas Safety (CCN1) and Central Heating Boilers (CEN1) at a cost of £645.00 + vat. Acceptance on to this course is subject to an interview and proof of experience in order to meet the ACS scheme entry requirements. The format and content of the work portfolio is covered during the interview and induction. <b>The certification fee for ACS and a training manual are included in the cost of this course.</b>	<b>10 DAYS</b>	<b>£1,295.00</b>

All the above ACS courses (except APL and packages) are subject to a certification fee.

## LPG SAFETY ASSESSMENTS

ASSESSMENT CODE	CATEGORY	TRAINING	ASSESSMENT
CONGLP1 (Including CONGLP1 PD Permanent Dwellings)	Changeover domestic natural gas to LPG for those holding a current CCN1 certificate or a COCN1 certificate. This course includes CCLP1 PD; installation servicing, and repair of domestic appliances in permanent dwellings.	<b>1 DAY</b> <b>£85.00</b>	<b>1 DAY</b> <b>£175.00</b>

LPG CATEGORY PACKAGE		DURATION	COST
This package includes training and assessment for the listed category types. The course includes installation, service, repair and commission on each of the following categories.	CONGLP1 LAV - Leisure Accommodation Vehicles	<b>1 DAY</b>	<b>£65.00</b> for each category or <b>£235.00</b> for all four
	CONGLP1 RPH - Residential Park Homes		
	CONGLP1 B - Boats and Yachts		
	HTRLP2 - Closed flue gas fires, LPG		

## COMMERCIAL NATURAL GAS SAFETY ASSESSMENTS

ASSESSMENT CODES	6 DAY COMMERCIAL CHANGEOVER PACKAGE	COST
CODNCO1 ICPN1 TPCP1A CIGA1 CORT1 CDGA1	This package includes training and assessment on changeover domestic to commercial core gas safety, installation first fix of commercial pipework and appliances, commission, service, repair and breakdown of 3 commercial appliances and tightness testing and direct purging of installation pipework. The package is intended for those with relevant experience of the subjects covered. CCN1 is a pre-requisite qualification for this course. <b>Price includes certification fee.</b>	<b>£1,275.00</b>

ASSESSMENT CODES	8 DAY COMMERCIAL CORE GAS SAFETY PACKAGE	COST
COCN1 ICPN1 TPCP1A CIGA1 CORT1 CDGA1	This package includes training and assessment on commercial core gas safety, installation first fix of commercial pipework and appliances, commission, service, repair and breakdown of 3 commercial appliances and tightness testing and direct purging of installation pipework. The package is intended for those with relevant experience of the subjects covered. <b>Price includes certification fee.</b>	<b>£1,595.00</b>

### CORE

ASSESSMENT CODE	CATEGORY	TRAINING	ASSESSMENT
COCN1	Commercial Core natural gas safety assessment. <b>This or a CODNCO1 is a prerequisite to all of the appliance assessments.</b>	<b>£255.00</b> <b>3 DAYS</b>	<b>£350.00</b> <b>2 DAYS</b>
CODNCO1	Changeover domestic natural gas to commercial natural gas for those holding a current core domestic gas safety (CCN1).	<b>£170.00</b> <b>2 DAYS</b>	<b>£210.00</b> <b>1 DAY</b>

### PIPEWORK

ASSESSMENT CODE	CATEGORY	TRAINING	ASSESSMENT
ICPN1	Installation first fix of pipework in excess of 35mm for natural gas and LPG.	<b>£75.00</b> <b>1/2 DAY</b>	<b>£150.00</b> <b>1/2 DAY</b>
TPCP1A	Tightness testing & direct purging of installation pipework not exceeding 1m <sup>3</sup> in volume, 40 mbar pressure and 150mm diameter natural gas only.	<b>£85.00</b> <b>1 DAY</b>	<b>£150.00</b> <b>1/2 DAY</b>
TPCP1	Tightness testing & purging of installation pipework exceeding 1m <sup>3</sup> in volume, up to 16 bar operating pressure (natural gas) & 2 bar operating pressure for LPG	<b>£170.00</b> <b>2 DAYS</b>	<b>£210.00</b> <b>1 DAY</b>

All the above ACS courses (except APL and packages) are subject to a certification fee.

## COMMERCIAL NATURAL GAS SAFETY ASSESSMENTS *continued*

### APPLIANCES

ASSESSMENT CODE	CATEGORY	TRAINING	ASSESSMENT
CIGA1	Commission, service, repair and breakdown of indirect fired natural gas and LPG commercial appliances.	£75.00 per appliance	£150.00 per appliance
CORT1	Commission, service, repair & breakdown of natural gas and LPG overhead radiant tube heaters and radiant plaque heaters.		
CDGA1	Commission, service, repair and breakdown of direct fired natural gas commercial appliances.		
BMP1 (formally CBHP1)	Commercial gas boosters – medium pressure	On-site P.O.A.	On-site P.O.A.
CGFE1	Commercial gas fuelled engines		

◆ Subject to the candidate holding the relevant natural gas or LPG core certificate.

8 DAY DOMESTIC TO COMMERCIAL UP-SKILL PACKAGE	COST
An in depth course to take operatives who already hold domestic CCN1 but have limited experience on commercial appliances and require detailed knowledge on the different appliance types, flues, controls and systems that can be commonly found in the field. The candidate will also undertake the required training and assessment on CODNCO1 (changeover commercial gas safety), ICPN1 (installation first fix of pipework in excess of 35mm), and CIGA1 (commission, service, repair and breakdown of indirect fired commercial appliances). <b>The course price includes the certification fee.</b> Further modules can be taken as required.	£1,275.00

5 DAY APPROVED PRIOR LEARNING PROGRAMME FOR COMMERCIAL HEATING	COST
This is an in-depth training programme covering all aspects of commercial heating gas safety as required by the ACS scheme, and it is recognised under the ACS Scheme as a managed learning programme. The course is intended for experienced operatives with sufficient commercial heating experience. Following successful completion of the programme, and the necessary work portfolio (if required), candidates will be ready to undertake the 5 Day Commercial Heating Assessment ACS Package as shown in the commercial gas courses section, for Commercial Core Gas Safety (COCN1), Pipework Installation (ICPN1) and Indirect Fired Boilers (CIGA1) at a cost of £995.00 + vat. Acceptance on to this course is subject to an interview and proof of experience in order to meet the ACS entry requirements. The format and content of the work portfolio is covered during the interview and induction. <b>A training manual and the certification fee are included in the cost of this course.</b>	£895.00

All the above ACS courses (except Commercial packages) are subject to a certification fee.

All the prices quoted are subject to VAT. Prices are current at the time of publication but may be subject to change. Training is not an essential prerequisite to ACS assessment. If candidates fail to achieve the required level of competency in either the practical or theory assessment, it may be necessary for them to complete a re-sit. If this situation arises an additional cost may be incurred. Gas Logic is a LOGIC Certification approved ACS assessment centre.

## NEW COMMERCIAL CATERING

5 DAY APPROVED PRIOR LEARNING PROGRAMME FOR COMMERCIAL CATERING	COST
This is an in-depth training programme covering all aspects of commercial catering gas safety as required by the ACS scheme, and it is recognised under the ACS scheme as a managed learning programme. The course is intended for experienced operatives with sufficient commercial catering experience. Following successful completion of the programme, and the necessary work portfolio (if required), candidates will be ready to undertake the 5 Day Commercial Catering Assessment ACS Package as shown in the commercial catering gas courses section for Catering Core Gas Safety (CCCN1), Gas Ranges (COMCAT1) and Gas Fryers (COMCAT3) at a cost of £830.00 + vat. Acceptance on to this course is subject to an interview and proof of experience in order to meet the ACS entry requirements. The format and content of the work portfolio is covered during the interview and induction. <b>A training manual and the certification fee are included in the cost of this course.</b>	£895.00

### PACKAGES

ACS CODES	DESCRIPTION	DURATION	COST
CODC1 COCATA1	ACS Changeover from Domestic to Commercial Catering Package CODC1, including COCATA1 changeover domestic to catering appliances. To undertake this package, operatives must hold a current CCN1, CEN1 and CKR1. <b>Price includes the certification fee.</b>	3 DAYS	£695.00
CCCN1 COMCAT1 COMCAT3	ACS Commercial Catering Core Package CCCN1, including COMCAT1 (Boiler burners, open/solid top ranges, hotplate, bain maries) and COMCAT3 (Deep fat and pressure fryers, griddle, grills). <b>Price includes the certification fee.</b>	5 DAYS	£895.00

### SEPARATES

ACS CODE	DESCRIPTION	DURATION/£ TRAINING <sup>▲</sup>	DURATION/£ ASSESSMENT <sup>▲</sup>
CODC1	Changeover from Domestic to Commercial Catering (must hold CCN1)	1 DAY	1 DAY
		£85.00	£210.00
CCCN1	Commercial Catering Core Natural Gas	2 DAYS	2 DAYS
		£170.00	£350.00
COCATA1	Changeover from domestic to catering appliances (must hold CEN1 & CKR1)	1/2 DAY	1/2 DAY
		£75.00	£150.00
COMCAT1	COMCAT1 (Boiler burners, open/solid top ranges, hotplate, bain maries)	1/2 DAY	1/2 DAY

CMC1	Commercial Mobile Catering (must also hold LPG changeover)	1/2 DAY	1/2 DAY
		£75.00	£150.00

▲ Individual elements do not include for certification fee.

In addition to the courses and assessments listed in this price list Gas Logic is able to offer off site assessments and bespoke courses tailored to customers requirements, subject to satisfactory facilities and certification body agreement.

## ADDITIONAL COURSES

COURSE TITLE	COURSE CONTENT	DURATION	COST
<b>NEW</b> Safe Isolation of Domestic Electrical Installation	This course is for operatives who may need to isolate electrical services before commencing work on either the electrical installation or connected appliances. The course covers the requirements of the Electricity at Work Regulations and involves practical training and an assessment using electrical test rigs. <b>Price includes course information and certification fee.</b>	½ DAY	£125.00
<b>NEW</b> City & Guilds 6020-01 Domestic Energy Assessor Course	This course is for candidates who want to be able to issue Domestic Energy Performance Certificates (EPC) which are required by landlords and those who need to produce a Home Information Pack as part of selling a property in England and Wales. The package price includes the undertaking of two EPC's as part of building the required portfolio. <b>Price includes the registration and exam fee with City &amp; Guilds. Also includes 1st years registration with H&amp;VCA as a Domestic Energy Assessor (worth over £150.00) and a copy of the Domestic Energy Assessors Guide.</b>	5 DAYS	£1,495.00
Gas Safety Awareness and Management	Gas safety course for Managers, Surveyors & Supervisors who have a duty and responsibility for operatives carrying out work on gas systems but do not hold CCN1 but need to be aware of current regulations and gas safety procedure, "Part L" regulation, SEDBUK rating, RIDDOR procedure and CP12 requirements.	1 DAY	£150.00

## RENEWABLE ENERGY COURSES

COURSE TITLE	COURSE CONTENT	DURATION	COST
<b>NEW</b> Solar Photovoltaic Systems Course	This course is designed to give an entry level qualification for experienced domestic/commercial electricians wishing to extend their work scope into Solar Photovoltaics. The course will cover Solar Photovoltaic installations up to 5kWp output and will cover the predominant systems (grid connected). Candidates must have experience in testing and issuing appropriate certificates as per BS7671 and must have a verifiable knowledge of the 17th Edition Wiring Regulations (2382 or 17th Edition Full Scope Part P). <b>Price includes the course manual and certification fee.</b>	3 DAYS	£495.00
Solar Thermal Domestic Hot Water Course	This course is to give an entry level qualification for experienced domestic heating installers or plumbers, wishing to extend their work scope into solar heating. The candidate should hold a G3 certificate in domestic unvented hot water systems. It is also essential that the candidate holds one DCLG recognised competency in a conventional fuel i.e. gas, oil or solid fuel; or for those in the plumbing field, an NVQ level 2 or equivalent plumbing qualification. The course is not intended to cover roof or access work in detail (other than to highlight legislative requirements). <b>Price includes course manual and certification fee.</b>	2 DAYS	£375.00
Domestic Heat Pump Installer Course (Ground & Air Source)	This course is for experienced heating installers who wish to install heat pumps in domestic properties and small commercial properties. The course covers both ground to water and air to water technologies. The candidates should have a good working knowledge of heating/hot water systems and design with an NVQ level 3 qualification or equivalent experience. <b>Price includes the course manual and certification fee.</b>	3 DAYS	£495.00

## HEATING AND WATER RELATED COURSES

UNVENTED HOT WATER SYSTEMS	DURATION	COST
This course is to train candidates in the installation and safety requirements of all Unvented Hot Water Systems up to 500 litres capacity and to meet Building Regulations (G3) and is designed for any candidate wishing to install or maintain Unvented Hot Water systems. <b>The price includes training, assessment, certification fee and course manual.</b> There is a voucher system operated by Megaflo which would allow candidates to redeem the cost of the course in product vouchers.	<b>INITIAL</b> 1 DAY RE-ASSESS. 1/2 DAY	<b>INITIAL</b> £195.00 RE-ASSESS. £125.00

WATER REGULATIONS ADVISORY SCHEME (WRAS) CERTIFICATE	DURATION	COST
This course covers the Water Regulations 1999. The course does not require the candidate to undertake prior learning as all the requirements will be covered during the course. Upon completion, the successful candidates will receive a certificate and card which will allow them to apply for approved plumbing contractor status with the Water Authorities. <b>The cost of the course includes all training material, assessment and certification fee.</b> This course is certified by LOGIC Certification and is WRAS approved.	1 DAY	£195.00

LEGIONELLA PREVENTION AND WATER TREATMENT	DURATION	COST
This course is designed to enable installers to understand the requirements of the ACoP Guidance Document L8, HSE Guidance, British Standards and Water Regulations. With the increased publicity surrounding recent outbreaks of Legionnaires, effective water treatment is of paramount importance to those carrying out installation & maintenance of hot & cold water supply systems and to those who are responsible for managing the properties. On completion of the course the installer will be able to undertake risk assessment and carry out disinfection using a range of methods including bleached, chlorine and silver hydrogen peroxide. <b>The cost of the course includes all training material, assessment and certification fees.</b>	1 DAY	£195.00

COURSE TITLE	COURSE CONTENT	DURATION	COST
<b>Certificate in Energy Efficiency for Domestic Heating</b>	The LOGIC Certification/IDHEE Energy Efficiency for Domestic Heating Certificate is for the professional heating installer who works in domestic properties. This course will prepare you for "self certification" as required under "PART L" Building Regulations. The certificate will demonstrate your competence and is recognised by Summit Skills, The Energy Savings Trust and The Energy Efficiency Partnership for Homes. <b>Price includes training, assessment and certification fee.</b>	1 DAY	£150.00
<b>Foundation Certificate in Heating &amp; Hot Water System Design &amp; Specification</b>	This course is for those who need to be able to understand and apply the criteria laid out in the Domestic Heating Design Guide for specifying and designing of wet central heating systems. The candidate will cover the following topics: Comfort conditions, System types, System design (including heat loss calculations), System specification & sizing of heating and hot water systems. The course would be particularly suitable for those having completed the APL programme or Heat Pump Course. <b>Price includes certification fee and a copy of the Domestic Heating Design Guide.</b>	2 DAYS	£375.00
<b>NEW</b> Domestic Underfloor Heating Installer Course	This course is for experienced heating and plumbing installers who wish to install wet underfloor heating systems in domestic properties and small commercial properties. The course will cover the predominant systems. The candidates should have a good working knowledge of heating/hot water systems and design with an NVQ level 2 qualification or equivalent experience. <b>Price includes the course manual and certification fee.</b>	2 DAYS	£375.00

## FULL SCOPE ELECTRICAL COURSES

CODE	COURSE DESCRIPTION	DURATION	COST
<b>City &amp; Guilds 2382-10</b> BS7671 IEE 17 <sup>th</sup> Edition Wiring Regulations <b>FULL</b>	This course is for electricians and those requiring a working knowledge of the 17 <sup>th</sup> Edition wiring regulations. Assessment is by City & Guilds GOLA online assessment which is based on a multiple choice format and takes 2 hours. <b>Price includes registration with City &amp; Guilds and examination costs.</b> Guidance documents are provided for use during the course.	<b>3 DAYS</b>	<b>£455.00</b> <i>Includes Brian Scadden guide to 17th Edition Wiring Regs.</i>
<b>City &amp; Guilds 2382-20</b> BS7671 IEE 17 <sup>th</sup> Edition Wiring Regulations <b>UPDATE</b>	This course is for electricians who hold one of the following and wish to update their qualification to cover the 17 <sup>th</sup> Edition wiring regulations: C&G 2381 (after June 2001), 2330 Pt7, 2330 Pt8 or 2360 Pt2. Assessment is by the City & Guilds GOLA online assessment which is based on a multiple choice format and takes 1 hour. <b>Price includes registration with City &amp; Guilds and examination costs.</b> Guidance documents are provided for use during the course. Candidates must provide the enrolment number from their original certificate before they can undertake the update course, City & Guilds can provide replacement certificates if required.	<b>1 DAY</b>	<b>£195.00</b> <i>Includes Brian Scadden guide to 17th Edition Wiring Regs.</i>
<b>City &amp; Guilds 2391</b> Inspection Testing & Certification of Electrical Installations to BS7671	This course is for those involved in, or responsible for the inspection, testing and certification of electrical systems under BS7671. The training is a mixture of both theory and practical on purpose built rigs. The practical assessment takes place on day 4 and lasts between 3-4 hours. The closed book written assessment takes place throughout the year on specified dates and is 2 1/2 hours long. Candidates should hold City & Guilds 2382 17 <sup>th</sup> Edition and have a practical working knowledge of different electrical systems. <b>Price includes registration with City &amp; Guilds and examination costs.</b>	<b>3 1/2 DAYS</b>	<b>£595.00</b> <i>Includes Brian Scadden guide to Testing and Inspection.</i>
<b>City &amp; Guilds 2377-02</b> In-service Inspection & Testing of Electrical Equipment	This course is for those who are involved in or wish to carry out inspection & testing of in-service electrical equipment. The course covers the practical hands-on requirements and tests required on electrical equipment, and the regulatory and legal requirements that underpin the inspection & testing. Assessment is by City & Guilds GOLA online assessment which is based on an open book multiple choice format and takes 1 hour. <b>Price includes registration with City &amp; Guilds and examination costs.</b>	<b>1 DAY</b>	<b>£195.00</b> <i>Includes Brian Scadden guide to PAT Testing.</i>
<b>EAL Level 2 Certificate</b> for Domestic Electrical Installers	This course is for experienced operatives wishing to gain entry to one of the "Part P" competent person's schemes. The course consists of 17 modules covering all aspects of domestic electrical installations from a practical, theory and regulatory standpoint. Assessment is carried out at the end of each module. This course is for candidates who already have a practical working knowledge of domestic electrical systems. <b>Price includes registration with EAL and examination costs.</b>	<b>5 DAYS</b>	<b>£995.00</b>
<b>LOGIC Certification</b> Testing & Periodic Inspection of Domestic Electrical Installations	This course is for experienced operatives who wish to issue Periodic Electrical Inspection Reports for domestic properties. The course is designed around the requirements laid down under BS7671 and will ensure candidates are fully conversant with the testing and inspection regime required using purpose made live rigs. Candidates should hold a "Level A" qualification and have a practical working knowledge of domestic electrical systems. This course covers only the issuing of Periodic Electrical Inspection Reports for domestic properties and those wishing to carry out Periodic Inspections for commercial or 3 phase systems should consider the City & Guilds 2391. <b>Price includes certification fee.</b>	<b>2 DAYS</b>	<b>£375.00</b>

The above durations include training & assessment. These timescales may alter during the course depending upon knowledge & experience of the candidate.

## "PART P" ELECTRICAL DEFINED & FULL SCOPE COURSES

The Defined Scope Electrical "Part P" course has been designed to enable gas installers, plumbers, kitchen fitters and builders to meet their requirements under the Building Regulations "Part P" to show their competence, and enable them to join an approved Competent Person self certification scheme as a defined scope operative. In addition to the Defined Scope assessments operatives can take the Full Scope top up assessment or sit the complete Full Scope course which can then be used to join the ELECSEA or NICEIC "Part P" Electrical Competent Persons Scheme as a Full Scope operative or qualifying supervisor.

COURSE	COURSE DESCRIPTION	DURATION	COST
<b>Defined Scope Package including Lighting &amp; Power levels B &amp; C</b>	The package is for engineers who carry out work on domestic electrical installations as a secondary task to their main role (Defined Scope). It includes component exchange, testing & inspection and both the power & lighting elements, level B & C. <b>The price includes supply of the IEE On-Site Guide for BS7671 &amp; Certification fee.</b>	<b>4 DAYS</b>	<b>£745.00</b>
<b>Level A module to add to above Defined Scope</b>	This module covers the additional areas that are applicable for those moving from the defined scope package above (EDSBCA) to the full scope package below. It covers the additional areas including special locations, new domestic circuits, domestic lighting circuits, maintaining domestic installations and 3 phase supplies. Combined with the defined scope package this can be used to join the <b>ELECSEA</b> or <b>NICEIC</b> "Part P" Full Scope Competent Persons Scheme.	<b>1 DAY</b>	<b>£100.00</b>
<b>Level A Full Scope Electrical Package</b>	The package is for any operative involved in the installation of domestic electrical systems who wishes to join the <b>ELECSEA</b> or <b>NICEIC</b> "Part P" Full Scope Competent Persons Scheme. The course and assessment covers all the 17 competence areas as listed in guidance document for Level A (Qualified Supervisor). <b>The price includes supply of the IEE On-Site Guide for BS7671 and certification fee.</b>	<b>5 DAYS</b>	<b>£845.00</b>
<b>"Part P" Defined &amp; Full Scope 17th Edition Update Course</b>	This course is for those who have completed the LOGIC Certification defined or Full Scope "Part P" electrical course prior to July 2008. The course will cover the changes from the 16 <sup>th</sup> to the 17 <sup>th</sup> Edition Wiring regulations that apply to domestic electrical installations. <b>Price includes the certification fee and a copy of the new 17<sup>th</sup> Edition On-Site Guide.</b>	<b>1 DAY</b>	<b>£195.00</b>

## DOMESTIC & COMMERCIAL GAS SAFETY TRAINING MANUALS

An ideal reference document which will not only assist you when revising prior to the start of your training, but also a valuable tool during the training course, and to have to hand when on site. To purchase a copy, you can either visit our Northolt or Basildon Centres or contact a member of our Customer Services Team on **0845 845 7222**.

### DOMESTIC MANUAL COVERS:

CCN1, CEN1, CKR1, WAT1, HTR1, DAH1, MET1

### COMMERCIAL MANUAL COVERS:

COCN1, CODNCO1, ICPN1, TPCP1, TPCP1A, CIGA1, CDGA1, CORT1

### COST OF MANUALS

DOMESTIC £24.00 (if collected) DOMESTIC £27.00 (when posted direct to customer)  
COMMERCIAL £35.00 (if collected) COMMERCIAL £38.00 (when posted direct to customer)
